Perspiring, panting and praying for re-lief, Washington's population is passing through one of the most trying periods in its history. The jocular have grown grave. Only Three Proposals Received at the Department.

The Midvale Steel Company Now a Competitor.

DIFFERENT CONDITIONS

Bids for the armor for the eight battle ships, six armored cruisers and three protected cruisers authorized by the last two sessions of Congress were opened at the Navy Department today. The armor advertised for aggregates 35,000 tons and constitutes the largest stake of its character ever opened to competition. The Carnegie and Bethlehem Steel companies, which have heretofore monopolized the production of armor plate for the use of the government, had a rival today in the Midvale Steel Company of Midvale, Pa. These three companies were the only bidders for armor plate, but there were two minor bidders for the boths and nuts, amounting to 600 tons, which are to be furnished in connection with the armor plate.
